Memo III -

As directed in the preceding page, the President of the Municipal Board was requested to organise and carry out a careful and complete enumerating of such children not belonging to the troops in garrison, and to furnish a return in the form prescribed for his guidance. He was also instructed to include therein the children of the ordnance Artificers, but not those of officers of Regiments of the Staff and Medical Commissioned and Warrant officers. As regards those children who do not attend Schools of any kind whatever he was directed to prepare a separate list of their names & the localities in

in which they reside, with any explanation obtainable of the grounds for their not being sent to School,- the cost incurred in getting up and compiling this Return being borne by the State

2 Dr. Orr accordingly forwards three Returns in the prescribed form, an abstract of which is appended in the margin. It will be observed that there are 1178 Children, (616 boys and 562 girls) in Bay alone between the ages of 6 and 18 years

Of these 1178 Children, 842 attend School & 326 dont

Of the 616 boys of school going age 527 attend school & 89 dont

3 Of the 326 Children not attending Schools of any Kind, the President does not furnish the information asked for, viz their names, residence, and if possible, reasons for not attending school, nor does he submit any explanation for omitting to do so He does not even report & whether these Children are privately instructed, but in Return I I it is stated that one boy and one girl are under private study As the Government of India in their letter of the 22nd May 1877 lay some stress on the former calculations of the Municipality shewing that nearly one-third of the Children of School-going age in Bangalore were not attending

school, perhaps Dr ought should be called upon to explain why he has not furnished the information ordered in the concluding part of para 1 of Chief Comrs proceedings of 7 August 1877, and to do so now.

4 The assertion by the Govt of India that the Direct of Public Instruction apparently included the attendance at Regimental schools therein reducing his estimate of the numbers not attending School to 79, can be explained in the sense of para 3 of Memo II and note by Secretary opposite. India being furnished at the same time with a list of the

As directed a draft was submitted for approval, but

the Secretary suggested a reference to be made to the Municipality to ascertain the cause of so large a number as 326 Children not attending School & such was accordingly done

Dr Orr now reports that he is unable to furnish the required information, as the Returns submitted by the Enumerators do not contain the same He further sub[mits] revised returns to be substituted for those previously sent, which are stated to be inaccurate The corrected figures have been entered in the draft to Government

The statistics now exhibit a marked [illegible]ed with

thus Dr Orr states that
there are at present only 852
Children in Bangalore of a
School going age - while the
number given in this office
letter to India of 3rd March/17
is 1592, and the Director's
Estimate of them 1650 Mr
Rice moreover states that
there were, according to official
returns on the 31st March/77
1162 Children attending Govt
and aided Schools alone,
exclusive of Regimental Schools
and unaided Schools - while
the Presidents Returns show
the number to be 614, exclu-
ding attendance at Regimental
